

rodeo2.

Resolved: Rodeo is cruel entertainment.

Mrs. Blick at 20:34 PM, 12 May 2011 via web

Resolved I think that rodeo is not cruel

Ruby con at 20:48 PM, 12 May 2011 via web

Resolved I think that rodeo is not cruel

Ruby con at 20:48 PM, 12 May 2011 via web

Rodeo is cruel entertainment

Judypro at 20:48 PM, 12 May 2011 via web

The injury in rodeo is extremely low

Jairo con at 20:49 PM, 12 May 2011 via web

PRCA and its members value their animals

Ruby con at 20:49 PM, 12 May 2011 via web

Dr.Robert said that lots of rodeo animals went to the slaughter

Erikapro at 20:49 PM, 12 May 2011 via web

The injury rate is 1% low

Ruby con at 20:50 PM, 12 May 2011 via web

It is safe to have animals on rodeos because humans take take care if them

Jason con at 20:50 PM, 12 May 2011 via web

Hi

Hunter con at 20:50 PM, 12 May 2011 via web

The ingury rate rodeo is extremly low less

than five-hundredths of one percent(0.0004).

Ismael con at 20:50 PM, 12 May 2011 via web

In california alone, nine horses and cattle died in one year

Jesus pro at 20:51 PM, 12 May 2011 via web

Experts say professional rodeos bucking animals enjoy what they do

Jose con at 20:51 PM, 12 May 2011 via web

The flank strap Is used to help buck not force too

Hunter con at 20:51 PM, 12 May 2011 via web

The flank strap Is used to help buck not force too

Hunter con at 20:51 PM, 12 May 2011 via web

Lots of calvs have had lots of broken legs and ribs when they use them in rodeo bucks

Judypro at 20:51 PM, 12 May 2011 via web

Lots of calvs have had lots of broken legs and ribs when they use them in rodeo bucks

Judypro at 20:51 PM, 12 May 2011 via web

Lots of calvs have had lots of broken legs and ribs when they use them in rodeo bucks

Judypro at 20:51 PM, 12 May 2011 via web

Bucking animals are born not made

Ismael con at 20:51 PM, 12 May 2011 via web

On the site rodeo veterinarians agree that the animals are treated well

Neidycon at 20:51 PM, 12 May 2011 via web

Rodeo is not part of our heritage, as rodeo promoters also claim

Jesus pro at 20:52 PM, 12 May 2011 via web

Cattle prods are used to aid in moving the livestock

Jose con at 20:52 PM, 12 May 2011 via web

Resolved..I think it's cruel rodeo livestock buck because they have a tight rope tied around their genital areas

Esme...pro at 20:52 PM, 12 May 2011 via web

They have lost lots of blood and that blood has been given out for free

Judypro at 20:52 PM, 12 May 2011 via web

Most serious rodeo injuries are calf roping, steertripping, steer wrestling, wild horse "roundups"

Erikapro at 20:53 PM, 12 May 2011 via web

Spurs can't hurt Livestock because they have 7 mm thicker skin

Hunter con at 20:53 PM, 12 May 2011 via web

Not many injuries The findings are based

on a recent survey involving 60,971 animals in 62 rodeos and 27 total radeos

Jason con at 20:53 PM, 12 May 2011 via web

"prorodeo animals are carefully sorted according to temperament for transport to and from rodeos to avoid injury"said Dr. Eddie Taylor

Ruby con at 20:53 PM, 12 May 2011 via web

When bucking the flank straps do not allow any foreign or sharp objects

Ismael con at 20:53 PM, 12 May 2011 via web

Professional rodeo judges take their responsability to report any violaters seriously. :)

Aldo con at 20:53 PM, 12 May 2011 via web

The PRCA stoves to ensure that its animal receives proper care and treatment before, during and after every rodeo performance

Jairo con at 20:54 PM, 12 May 2011 via web

One bucking horse was killed in Ottawa in august of 1999

Erikapro at 20:54 PM, 12 May 2011 via web

The spurs don't hurt the horses because the human skin is 1-2 mm thick and the horse skin is 5 mm thick

Jason con at 20:55 PM, 12 May 2011 via web

Most cowboys create a bond with the animals outside of rodeo and don't wanna hurt 'em

Hunter con at 20:55 PM, 12 May 2011 via web

In a rodeo timed event, the calf is forced to run at top speed and then is stopped so violently by a rope around its neck that it is often

Jesus pro at 20:55 PM, 12 May 2011 via web

The PRCA strives to ensure that its animals receive proper care & treatment before during & after every rodeo performance :)

Ruby con at 20:56 PM, 12 May 2011 via web

The flank strap is never pulled tight enough to cause injury or pain

Neidycon at 20:56 PM, 12 May 2011 via web

The flank strap is never pulled tight enough to cause injury or pain

Neidycon at 20:56 PM, 12 May 2011 via web

The most serious rodeo injuries occur in calf roping, steer tripping, steer wrestling

etc.

Esme...pro at 20:56 PM, 12 May 2011 via web

People have seen as much as two to three blood accumulate under the detached skin

Judypro at 20:56 PM, 12 May 2011 via web

When tightened is likely it does not touch the genitals.in fact many of the top bucking horses are mares.

Ismael con at 20:56 PM, 12 May 2011 via web

Animal welfare is one of the most important initiatives for the prca

Jose con at 20:56 PM, 12 May 2011 via web

Horses and cattle travel to rodeos in trucks that are especially designed for their protection.

Aldo con at 20:56 PM, 12 May 2011 via web

Jerked completely off it's feet and slammed into the ground

Jesus pro at 20:57 PM, 12 May 2011 via web

Hi

Jose con at 20:57 PM, 12 May 2011 via web

Many horses had died in the 1999's

Esme...pro at 20:57 PM, 12 May 2011 via web

Horses and bulls break their legs and injured to skin

Judypro at 20:57 PM, 12 May 2011 via web

Cows and horses r put in safe pens at
rodeo events with food and water

Hunter con at 20:57 PM, 12 May 2011 via web

Hello

Jairo con at 20:57 PM, 12 May 2011 via web

Jason suks

Hunter con at 20:58 PM, 12 May 2011 via web

The hides of horses and bulls are five
times thicker than humans skin

Ismael con at 20:58 PM, 12 May 2011 via web
